todd@edje.com

The following terms and conditions have been agreed on by the North Dakota & South Dakota Simmental Association's Board of Directors and the Publication Committee.

Advertising Space Rates

Size	BW	4C
Full Page	\$500	\$625
½ Page	\$350	\$450
¼ Page	\$250	NA
Business Card	\$200 (per year)	

Advertising Deadlines

Issue	Deadline
November	November 1st
January	December 20th
February	January 20th

Terms

All advertising accounts are due and payable as invoiced. Interest charges of 1% per month will be assessed to accounts that are 30 days past due.

Delinquent Advertiser's Account

Advertisers knowingly and expressly agree and consent that, whenever accounts receivable for an advertiser have not been paid as of 90 days from date involved, advertising privileges will be suspended until full payment has been received.

Copy Changes

Alterations in advertising copy, if requested after closing dates will be permitted only if time allows.

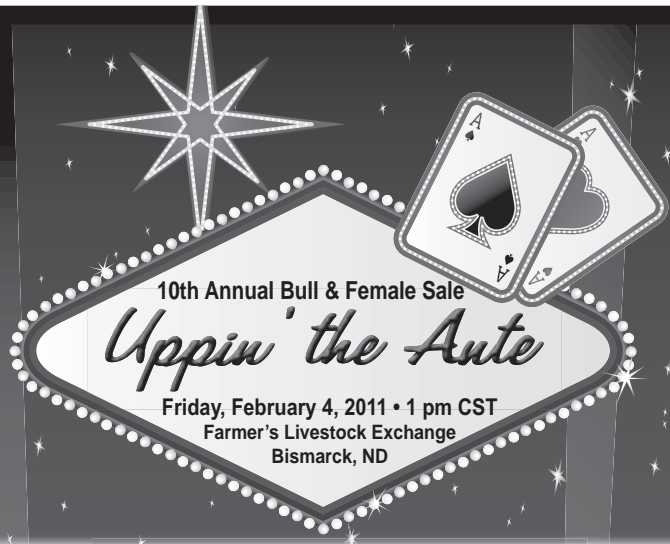

The North Dakota & South Dakota Simmental Associations and this publication reserve the right to refuse any advertising copy at our sole discretion. The North Dakota & South Dakota Simmental Associations and this publication assume no responsibility for the accuracy of the advertising content submitted. Advertisers assume all responsibility for the accuracy and truthfulness of submitted advertising containing pedigrees or statements regarding performance.

Editorial Content

Opinions expressed are those of the writer and not necessarily those of the North Dakota & South Dakota Simmental Associations or of this publications. Photographs and manuscripts are welcome, but no responsibility is assumed either while in transit or while in this office.

PRIVATE TREATY SALE

FEBRUARY 1-5, 2011

SIRES REPRESENTED:

Freedom, Dream On, ACS Red Knight, Preferred Beef & Nophaut

BULLS & FEMALES

Our website will be on EDJE.COM site by mid-January!

Come see the cattle on our ranch and take the time to share a cup of coffee and think about your purchase without feeling rushed. We will take the time to personally get to know you and your cattle needs. Providing the genetics that fit with your program is our goal and by offering friendly hospitality and a relaxed visit to our farm we know you will walk away with a purchase that works best for your operation.

Thank you to Bickler Simmentals, Linton, ND for the purchase of the high selling heifer at the NDSA Classic Sale (M&J Lookatme) and Neismeier Simmentals of Leonard, ND for the purchase of M&J Lena.

email: darbegger@yahoo.com

Why Buy From Begger's Diamond V? *Extra Profitability. Because....*

- We know as a commercial producer you sell your cattle based on weight and how they look (quality). How value is determined varies, whether it is in the auction market, in the country, by video or on the rail. Be assured quality and performance has been the basis of our program from the beginning.
- Reputation - take away all the numbers, all the EPD's and fads....Begger's Diamond V Ranch has strived to raise only high quality cattle for over 35 years.
- At Begger's Diamond V Ranch you are not just buying a bull you are buying a program.
- Our 35 years of AI'ing and embryo transfer gives you access to the top genetics of the Simmental and Angus breeds, which allows you access to the very best genetics.
- You will experience fewer time consuming management problems, especially with udders, fertility, feet, legs and disposition because we cull our herd for such problems.
- You are selecting from the top end, the bottom has already been culled.
- Our cattle are raised in an unpanpered environment to ensure that they will work for you.
- EVERY bull has an efficient, hard working mother that does her job in eastern Montana's tough environment. Raised strictly on grass, no creep.
- Responsibility - We accept the responsibility to provide you with only predictable genetics. They must meet our standards before they meet yours.
- Our success depends on yours and we expect your purchases to work for you. We stand behind them 100%.
- Bulls are 6 to 7 frame.
- Bred for calving ease, fast growth, efficiency, maternal strength and carcass quality.
- Bulls are developed for ranchers on a high roughage ration with very little starch and plenty of exercise.
- Every bull was born, raised and developed on our ranch. We believe that by keeping them home and out of commercial feedlots and sale barns, we offer a bull that is less likely to be exposed to some unwanted disease.
- Many are homozygous black and all are polled.

North Dakota Simmental Association Annual Banquet

North Dakota Simmental Association Pioneer Award Winner 2010

Larry Haas

If you've ever had the opportunity to spend five minutes with this year's Pioneer Breeders, you'd immediately sense their genuine excitement for and vision of the beef industry.

This Simmental story begins in the Ukraine back in the early 1900's when a young man decided to flee from a war-ravaged country. He stopped in Russia before immigrating to the United States where he worked for his cousin for two years to pay for his fare across the Atlantic Ocean.

In the 1930's, this man, named Fred, and his new bride from the Ashley area homesteaded in southwest North Dakota. Together the couple began raising a family, small grains and Hereford cattle.

As this year's Pioneer Breeder will tell you, in those days, you either had Hereford Cattle or Angus Cattle and you certainly didn't crossbreed them.

By the 1960's, when this year's Pioneers were in High School, the focus in the industry had begun to shift toward performance – a concept Larry immediately found interesting and exciting. He recalls going to a local breeder's ranch to select bulls but leaving a little disheartened when his questions about performance were left unanswered.

A few years later, exotic cattle were introduced into the United States. It just so happened that one of this year's Pioneers was working as a salesman for Minnesota Valley Breeders – the precursor of today's Genex. Larry recalls that the interest in these new breeds – and Simmental cattle in particular – was exceptional. He'll readily tell you about how he met planes stocked with semen at 10 o'clock at night or 2 o'clock in the morning and how he brought that semen to local sales rings the next morning, selling it on a first-come, first-served basis. At that time ranchers could purchase Angus semen for \$5 to \$8 an ampoule, while exotic semen was three times that price.

Like those early adapters, this Pioneer family got excited about the Simmental breed. They liked the exceptional performance traits – the weaning weights, the profitability and the functionality of the cattle, but in particular, they appreciated the common-sense leadership of the breed's founding fathers.

Like this year's Pioneer Breeders, those founding fathers were performance oriented. They liked data. They were true blue cowboys who wanted cattle that looked good, were profitable and were user friendly. Those same traits are just as important to today's breed leaders – leaders who make a majority of their income from the ranch – off of functional, profitable Simmental cattle.

Larry Haas, the 2010 Pioneer Award Winner

The Haas family from Elgin knows quite a bit about functional, profitable cattle. Over the years their operation has supported three generations of ranchers – beginning with Fred who

emigrated from the Ukraine to his son Ed and their families. Most recently, it was run as a partnership between brothers Larry and Tom Haas. The brothers disbursed in 2009, but their excitement for the Simmental breed and the cattle industry continues to be strong.

In fact just this week, Larry told a local reporter that he would love to be 18 again because of all of the opportunity he sees in the cattle industry right now, not to mention the data and information we have today compared to when his family started in the Simmental business nearly 5 decades ago.

Please help me in congratulating Larry and Tom Haas and their families. They are the 2010 North Dakota Simmental Association's Pioneer Breeders.

North Dakota Simmental Association Promoter of the Year 2010

Todd Finke

Todd began his early introduction to Simmental cattle at the home of his father and mother (Roger & Susan / SRF Simmental). He began showing Simmental through 4-H, then FFA, and competed at a couple of American Simmental Association Regional Classics. Todd went to college at Dickinson State and North Dakota State University. While at NDSU he was a member of the livestock judging team.

Todd worked for the American Simmental Association and Register for five (5) years. The combined position as field representative and magazine work allowed him to visit and work with many Simmental operations and give him a wide range of experiences.

Returning to Berthold to farm and ranch, Todd has continued to serve the Simmental breed. He has built a consultant/ringman service. His work ethic, eye for cattle, and honest opinion has earned him the respect of many breeders and commercial cattlemen in the region.

Todd, his wife Kelly and children, Carter and Abby are part of the Edge of the West marketing group that has a Female sale in January and a Bull sale in April each year.

To add to that busy schedule, Todd takes part in local organizations and has been the Editor of the North Dakota Simmental Scene and also the South Dakota SimTeller.

The North Dakota Simmental Association is proud to present the Promoter of the Year to Todd Finke.

President Pat Thorson congratulates Todd Finke as Promoter of the Year

North Dakota Simmental Association Commercial Producer of the Year 2010 Berndt Ranch

Simmental cattle have been the backbone of the Berndt Ranch since 1969, when Sonny's dad introduced the Simmental breed into his herd through an AI program. Raised on the family ranch, Sonny has been exposed to the various trends of the Simmental breed and genetics that have built the foundation of dependable producing females.

North Dakota Simmental Classic Sale Report

North Dakota Simmental Classic Sale Farmer' Livestock Exchange, Bismarck, ND December 18, 2010

Now a second generation rancher, Sonny his wife Lori and their three children, Randy , Desserae and Brittany maintain a 650 cow calf operation in McHenry county . As a family, they produce corn, alfalfa, oats and native upland grasses to maintain the cow herd and back ground calves in a ninety day feed lot program. Sonny markets his calves to various feedlots and livestock buyers across the region. He is a member of the Pfizer vaccination program and strongly believes that a healthy herd is a productive herd.

Purchasing bull from some of the top notch breeders in North Dakota along with an effective sixty day AI program, Sonny has developed a herd that produces heavy weaning weights in the fall and a productive line of Simmental /Red Angus cross replacement females that are easy fleshing, high fertility and calving ease.

President Pat Thorson
congratulates the
Berdnt Ranch as
Commercial Producer
of the Year
