

A large herd of cattle, including black and brown cows, is gathered in a dry, grassy field. In the background, a tall metal water tower stands among trees with vibrant autumn foliage in shades of orange and brown. The scene is partially covered by a large, textured, grey mesh net that hangs from the top of the frame.

On behalf of the sale consignors, I would like to welcome you to the 2019 North Dakota Simmental Association Classic Sale! 2019 marks the 48th Anniversary of the North Dakota Simmental Association and many of the consignor families involved in this event have roots back to the very beginning.

Again, this year, we are sharing the sale date and facility with the ND Red Angus Association and their Red Select Sale which starts at 11:00 am CST with the ND Simmental Sale following immediately after. The two breeds of cattle complement each other very well and both associations work together very well both on state and national levels.

The Summer and Fall of 2019, as all of you know, was a very challenging year for agriculture in the upper-Midwest due to excessive rain through the summer and into Fall with a historic blizzard in mid-October. I admire the fortitude, commitment and drive of the consignors to again offer you an outstanding set of genetics.

The North Dakota Simmental Classic Sale has developed a reputation as being a source of some of the top Simmental/SimAngus seedstock and genetics available in the land. The offering has been selected from the heart of the some of the top programs in the upper Midwest! The programs involved in this sale present some of the top bull sales in the country each and every year!

I would like to point out that each year while screening for this trip individuals that are selected for the sale go back to or are out of females that were purchased in this sale – a testimonial that these cattle will work!

The North Dakota Simmental Association provides a Junior Incentive Program that is outlined in the catalog and offers a tremendous opportunity for Junior members. This sale offering presents a large number of open heifers that would be very competitive at many levels.

The bred heifers and donor females in this year's offering are the kind that produce those same females, as well as some of the top bulls in individual bull sales held by these consignors! As buyers you have the opportunity to select individuals and genetics that can advance your program significantly in the future!

Again, this year's sale will be broadcast on DV Auction for those of you that may want to participate via the internet. Also, we will be posting updated photos and information on the North Dakota Simmental Association website: www.northdakotasimmental.com, as well as on individual breeder's websites and Facebook.

We invite you to be with us on December 14, 2019 for the sale, as well as on December 13, 2019 for the NDSA Annual Meeting and Banquet. We encourage you to contact any of the consignors or sales staff ahead of the sale and look forward to seeing you on December 13-14th!

Sincerely,

Jeff Thomas and the Consignors of the 2019 NDSA Classic Sale

We are excited to offer embryos by the prolific TJ 38W donor and sired by our up-and-coming herd sire, LCDR Favor 149F. Favor is a Witness son and natural calf of the popular C4 donor. This mating not only predicts a breed-leading EPD profile, but also a standout phenotype, possible baldy and intriguing outcross. Doesn't get much more exciting than that!

- Talk about a tank. We can't get enough Wide Load daughters in the herd. Maybe the best sire we have ever used to put top udder qualities under his females. I believe that F55 will have a great udder and make a great female.

• A half-blood Sizzler heifer that proves her worth. This heifer has tremendous rib shape, a clean front and power to last. She tracks with fluidity and a long powerful stride. Gina has the power and pedigree to be a highly productive stimulus to a breeding program. Sizzler Style 454D is a bull owned by Double J Farms. This bull comes from a dam that we sold as a heifer calf at the 2014 ND State Sale. She was a hard heifer to part with, but her progeny are making their mark.

• This heifer's granddam was purchased from this sale as an open from Stavicks in 2012. Her dam has only produced bulls for us until this heifer. Her sire has sired our top selling bulls and replacement heifers since his first calf-crop. She is a tough one to see go. An easy-keeping kind of heifer that will grow into a profit-making cow.

Due to the challenging Fall, many heifers were not pictured at printing time. Watch the NDSA website for additional pictures and videos of females selling December 14th!

In Memory

The North Dakota Simmental Association lost two special members and friends this past year. These two men left lasting impressions on many in our Association and our hearts go out to their families.

Arnold Woodbury, Wyndmere, ND

Cattle were Arnold's life. He was one of the first promoters of the Simmental breed in North Dakota. He attended the first state Simmental organizational meeting in Bismarck, ND, and later served as the North Dakota Simmental Association President. Arnold exhibited cattle for many years at the Crookston and Valley City Winter Shows and was a consignor to the Pride of the Northland Sale and the ND State Sale. He received both the Promoter of the Year and Pioneer awards from the ND Simmental Association, receiving the Pioneer Award in 2018. He and his son, Todd continued with their cow-calf operation, selling purebred bulls and heifers until his death.

Arnold Woodbury

Warren Nelson

Warren Nelson, Wibaux, MT

Warren was a partner in the Nelson Livestock Company Ranch with his brother, Tom at Wibaux, MT. The Nelson's have been members of the ND Simmental Association for many years and have been great supporters and friends to ND Simmental members. Most people knew Warren for his phone calls at early morning hours to find out what was going on and to sell them a bull or heifer. Warren always enjoyed visiting with his Simmental family in North Dakota and Montana.
