DVAuction
Broadcasting Real-Time Auctions

Rules:

1. Open heifer must be purchased at the ND State Simmental Classic Sale. Purebred or 50% or higher percentage heifers qualify to show. Sale credit applies to the show season immediately following the sale. Example if heifer is purchased in December 2025, show season would be the summer of 2026.
2. Junior member must register the heifer in their own junior membership with the American Simmental Association. Junior members listed as a representative under an adult membership does not qualify.
3. Junior members must be a member of the ND Junior Simmental Association
4. Only one level of credit (highest) per year awarded per qualified junior member. Junior members will receive sale credit for placing or winning in the levels listed below.
5. Sale credit must be used at the State Sale in December of the same year's show season. If not used that year the sale credit will be voided.
6. To receive sale credit junior must provide a picture (advertising quality) and a signed statement from a ND Junior Simmental Association Advisor for the Classic, ND JR Field Day or ND State Fair shows; from a NDJPSA Advisor for the ND Jr Points Association levels; or from your local county extension agent /Chapter FFA Advisor for the local County Fair level by December 1 of current year.

Levels of Sale Credit Incentives:

- Simmental National Classic or Regional Classic —\$1,000 sale credit
- Place in the top 10
- ND JR Field Day or ND State Fair Junior Simmental Show —\$750 sale credit
- Grand Champion or Reserve Grand Champion Heifer
- ND Junior Points Show Association —\$750 sale credit
- High point year end heifer
- Local County Fair —\$500
- Champion Overall Breeding Heifer at your local county fair

Greetings!

On behalf of the consignors and myself, it is with great pleasure that I welcome you to the 2025 North Dakota Simmental Association Classic Sale! This list of consignors has been a pleasure to work with when it came to putting together this offering, which is impressive from the beginning to end. The programs represented in this catalog are some of the nation's most reputable Simmental breeders, and are offering from the front end of their herd.

New this year, the sale will be on Friday, December 12 at 1:00 pm CST, on their own date. The weekend will be still be presented together at Kist Livestock with the ND Red Angus Association. It is a pleasure for both associations to work together and make a great weekend of the event.

Simmental cattle are in demand, now more than ever for their added performance and longevity. With times like these, now is a great opportunity to invest in genetics that will put forth your program for the future.

The females offered in this sale have potential to produce front-end bulls and females for every operation. The genetic opportunities presented are some of the rarest, most sought after genetics the breed has to offer. Don't be afraid to take a close look at the entire offering.

The sale will again broadcast on DVAuction, and videos will be posted prior to the sale. Any updates can be found there, on of the ND Simmental website- northdakotasimmental.com.

I would like to extend to sincere Thank You to the ND Simmental Association for the opportunity to work with them on this sale, and to the consignors for trusting in the event. If you have any questions on the offering, please feel free to reach out, I would be happy to assist however I can. See you in Mandan on Dec 12th.

Sincerely,

Logan Hoffmann

Location: Kist Livestock..... 701-663-9573
1715 40th Ave SE • Mandan, ND 58554

It is our pleasure to donate this year's heifer. This heifer should turn into a good cow with a real maternal pedigree of Galileo X Beacon. *Consignor:*
Hoiby Simmental Ranch - McGregor, ND

CCR Galileo 9644J - Sire of the 2025 Donation Heifer!

Hooks Zurich 18Z • Donor Dam of Lot 2A

HOOK'S ZURICH 18Z

Maternal greatness defines this decade-old matron. Pictured at 12 years of age, Zurich is massive in her body shape, bold in her rib design, and continues to exemplify the structural integrity and longevity that few cows maintain through years of production. She has 13 AI-sired calves to date, with 11 of them at a 109 WW ratio and 9 at a 107 YW ratio, highlighting her consistency and performance.

Marvel is a record-setting \$167,500 high seller and a standout in ABS's new sire lineup. Explosive muscle, ideal balance, and top 1-2% rankings in 9 EPD traits give breeders the performance and data they're after. Paired with Zurich, this outcross mating adds even more power with proven maternal strength for unmatched potential. **Selling 3 Embryos, 1 Pregnancy Guaranteed.** *Consignor: Double J Farms • Garretson, SD*

When we purchased Zurich, we knew Dakota Outlaw was the obvious choice for a flush. A cornerstone in Midwest seedstock programs, Outlaw is known for his soundness and the extra muscle he consistently passes to his calves. His progeny remain in high demand for their durability, performance, and ability to advance functional, high-quality genetics. Now deceased, with limited semen available, this mating captures genetics that are increasingly rare and highly sought-after. **Selling 3 Embryos, 1 Pregnancy Guaranteed.** *Consignor: Double J Farms • Garretson, SD*

Donor- It was clear at a young age WS Sweet Katch was special. Then in her opening production year, she affirmed those observations when her first son made a big splash at our 2025 Breeding for the Future Sale with ABS and Allied Genetic Resources selecting WS Marvel as a spotlight feature in their AI sire book lineups! We look forward to seeing how this inspiring young donor cow will further impact the breed, and we invite you to be part of that future with these compelling embryo opportunities. (Grade 1 embryos/guaranteeing 1 pregnancy on each bundle of 3)

1 bundle of 3 full siblings to WS Marvel.. Your choice of SEXED HEIFERS or UNSEXED embryos by the popular sire, Hook's Galileo. *Consignor: Wilkinson Farms Simmental • Montpelier, ND*

Jet Black 706J was purchased off of the Bred For Balance sale in 2022 and has been a trusted bull in our arsenal since. The first season we ran him on our heifers and ever since almost every Purebred heifer to come through the chute that's not out of him gets bred to him. We see this as an opportunity to turn out a bull on your cows that is a clean blood line and keep every female out of him. His heifers always find themselves at the top of the replacement pen and the bull calves have always gotten to the picture pen for us. Semen has been selling in high demand through Cattle Visions to some of the leading programs in the country. Selling Pasture walking rights for the 2026 breeding season only. Detailed terms to include- one 60 day breeding season, single sire pasture use only, zero semen collection rights. *Consignor: Tri E Simmentals - Clifford, ND*

Here is a female that hits you hard when you see her. The presence she has is infectious, the amount of rib shape and volume and just ties into her front end so nice. This sweet uddered calf raiser is one to definitely take a look at if you are interested in adding phenotype. Her dams sire has done a tremendous job for both the CK and Chestnut programs. An Angus female sired by R5 Solution sold a son for \$130,000 called Chestnut Force 482. I purchased the walking rights. A bull that has done a fantastic job. He just makes a calf crop better. If you go back a few generations in R5 Solution you will find a Dikoff Ranch female. Lot 7 sells with a heifer calf sired by the now deceased ES Right Time. What he has done for the Simmental breed has been nothing short of amazing. This is a big time Opportunity. Calf's reg # 4595846. Sells open. *Consignor: Justin Dikoff - Faulkton, SD*

They say when you sell one, if it doesn't hurt then they aren't that good. Well, this one hurts to sell. This percentage Baldy female is out of our foundation Angus donor cow and has been a very consistent producer. 9727G is falling right into her footsteps and is just starting to hit her stride to start hitting a bunch of home runs. Last year in our sale she produced a \$12,000 bull going to Missouri and has put numerous daughters in the replacement pen. If you want to produce cattle with extra phenotype and consistency, she would be a great addition to any program. This picture was taken a year ago before calving. If she can produce this well in our small herd, imagine the potential on a larger scale. A/d to: MR SR 71 Right Now E1538 ASA#: 3325668 on 4/21/25. Due: 1/28/2026 *Consignor: Dustin and Kate Carter - Vermillion, SD*

This 3/4 blood has to potential to take you in many directions. Homo polled and black, out of King James, whose songs were extremely popular and impressed many during last year's sales. There have not been many daughters sold to this point. She goes back to a great cow family that is and has produced great offspring. Her dam is a Haggard daughter from a highly successful flush out of the 421B cow. The options are limitless with this female; you can take her offspring to the purebred side or the percentage either way she will produce a winner. *Consignor: Double T Simmentals - Turtle Lake, ND*

This heifer is a direct daughter of the donor cow that also sells in this sale. Her sire is one that will add extra muscle and rib shape, and you can see that in this girl. She comes from a cow family that has been tremendous producers for us and been the cornerstone to our program. There are multiple half-sisters to her in the replacement pen and they look to be turning into great cow prospects. Bid with confidence on this heifer to produce high end seedstock. We have been halter breaking this heifer so come sale day will make a nice project for a junior! *Consignor: Dustin and Kate Carter • Vermillion, SD*

This one is built for raising herd bulls, a big time horsepower kind of heifer with performance to burn. While being stoutly constructed she still has plenty of extension in her front one third. She ties her neck nicely into her shoulder, then explodes into a sweeping bold rib cage. When you step in behind her she is square and wide from the top of her shoulder all the way to her tail head with muscling dripping off of her hip deep into the twist of her leg. *Consignor: Hansen Simmental Ranch • Ryder, ND*

N104 is backed by a top cow family. Her dam, G978 has a 101 WWR on her calves that include a full brother that was our high selling red bull in our 2024 sale to Cody Gentzkow of Lamoure ND. We also have a full sister to N104 retained who's first calf was a heifer also retained, and her second calf will be a featured red bull in our upcoming 2026 sale. Granddam is E797 who has been a great producer recording 107 WWR and 105 YWR on her calves with several bulls through our sale including our 2022 high seller KLSR Thunder J44, also to Cody Gentzkow. Udder quality is top notch in the cow families and has been excellent on stride daughters as well. Great opportunity to own a female with a lot of predictable production ahead of her. Homozygous Polled, Non Dillutor. *Consignor: Kline Simmental Ranch • Hurdsfield, ND*

N59 is an ET daughter from our 937E donor. Her flush to M4 Alpha 267K really clicked and there will be 4 full brothers to N59 that will highlight the black division for our 2026 bull sale. 937E has been a great donor for us, her progeny are very easy fleshing, heavy muscled, docile and fertile. Her mark was left on our 2025 bull sale as another ET son of hers, KLSR Black Smoke M1 topped the sale going to the Staigle family of Mandan Lake Simmental. This is an exciting opportunity to own the first and possibly only daughter to sell from 937E. Heterozygous Black, Homozygous Polled.

This female is a maternal sister to THSR Clicker, the high selling bull in our 2023 sale going to Beggars Diamond V Ranch. This heifer is hard to part with as she's kind of the complete package, when you examine her on the hoof, she's feminine, has plenty of rib shape, big topped, and moves out freely on an awesome set of feet and legs! Looking at her on paper and there's endless ways to breed her. She's got great performance, maternal traits, and carcass traits along with being to 3% API and 1% TI. Be sure to find her sale day! *Consignor: Triple H Simmentals • Hannaford, ND*

Really nice dark red heifer with a little different twist on her pedigree to a lot of mainstream red cattle. The Full Figures cows are making some tremendous females with excellent udder conformation and have shown they will produce very valuable offspring. The Grainger heifer calf she is carrying will be one you will want to retain in your herd as the Grainger females are very maternally driven females with excellent udder quality yet maintain plenty of growth. A/d to: WS Grainger 79G ASA#: 3587899 on 5/28/25. Pasture exposed to: MLC Necessity K668 ASA#: 4130062 from 6/5/25 to 8/25/25 Ultrasound safe with heifer calf. Due: 3/7/26 *Consignor: Hansen Simmental Ranch - Ryder, ND*

Goodness this one is sure fun to look at. I don't think there is any bad angle or day to look at this one. A few words to describe her is clean fronted, long bodied, bold ribbed, with a big square hip. The Freightliner females are making gorgeous cows that are built for the long haul. They have neat clean udders, flesh easy, and have excellent foot quality. The Falcon bull calf this heifer is carrying could easily be a home run on her very first calf. A/d to: LRS Falcon 442G ASA#: 3563006 on 5/28/25. Pasture exposed to: Martin Gunpowder L331 ASA#: 4280691 from 6/5/25 to 8/25/25 Ultrasound safe with bull calf. Pay attention Ladies and Gentlemen! Do your homework on this pedigree - 0161M is sired by Five Star King K14 who is sired by OMF Hard Right H21- and out the Five Star Ranch= Glory G19- a no miss cow in their program. As if that wasn't enough her dam is a SAV Bismarck daughter out of the breed great HF Serena from Trennepohl Farms- LOTS of Genetic power to back this female - 0161M is very bold in her makeup- she is bred up early to OMF Magellan M61 (ASA #4413150)- this is a mating that will give you a very balanced EPD profile- Don't Miss out on this Genetic opportunity . Pasture exposed to: OMF Magellan M61 ASA#: 4413150 from 3/20/25 to 6/15/25 Ultrasound safe with calf. Due: 1/1/26 *Consignor: Heartland Cattle Company - Des Lacs, ND*

It's no secret that her sire, Epic, has made an impressive impact on cow herds across the country, and this female is no exception. This moderate-framed, well-balanced bred heifer stems from an outstanding young cow family and carries the style and maternal quality we've come to expect from the Epic line. We're genuinely excited about this one and eager to see the mark she'll make in her new herd. AI'd to: JC Mr Pontiac D114K ASA#: 4029546 on 5/14/25. Pasture exposed to: KBHR Bismarck L071 ASA#: 4225747 from 5/25/25 to 7/28/25 Ultrasound safe with a bull calf. Due: 2/17/26 *Consignor: Klain Simmental Ranch • Ruso, ND*

Another broody Epic daughter that traces back to a cow family that's never missed a beat. This heifer has the look and quality of a true herd builder. Both of our bred heifer offerings are bred to JC Mr Pontiac D114K, a 3/4-blood bull we used on our heifers with great success. His calves came easy and grew well — we've been nothing but impressed with the results. You won't be disappointed here AI'd to: JC Mr Pontiac D114K ASA#: 4029546 on 5/14/25. Pasture exposed to: KBHR Bismarck L071 ASA#: 4225747 from 5/25/25 to 7/28/25 Ultrasound safe with a heifer calf. Due: 2/17/26 *Consignor: Klain Simmental Ranch • Ruso, ND*

This fancy, high-index heifer combines low birthweight with exceptional growth and performance potential. Her dam line is a cornerstone of our program: the granddam produced one of last year's top-selling bulls, and the great-granddam traces to the influential B452 cow — a family known for longevity and consistent progeny performance. Structurally correct with plenty of eye appeal, she shows the balance and muscling that translate to production and carcass value. AI bred to KBHR Calibrate, an exciting new herdsire in our program, she offers calving-ease genetics paired with growth and maternal merit. AI'd to: KBHR Calibrate ASA#: 4225762 on 5/11/25. Ultrasound safe with bull calf. Due: 2/18/26

AMERICAN SIMMENTAL ASSOCIATION EPD & INDEX DEFINITIONS	
CE	Reported as the difference in percentage of calves being born unassisted out of first-calf heifers, with higher values representing greater calving ease.
BW	Reported as the difference in pounds of calf birth weight.
WW	Reported as the difference in pounds of progeny weaning weight.
YW	Reported as the difference in pounds of progeny yearling weight.
ADG	Reported as the difference in post-weaning pounds gained on a daily basis.
DMI	Reported as the difference in pounds of daily dry matter intake.
MCE	Reported as the difference in percentage of daughters calving unassisted as first-calf heifers.
MILK	Reported as the difference in maternal pounds of weaning weight from an individual's daughters due to milk.
MWW	Reported as the pounds of weaning weight expressed in daughters' progeny due to the milk production of the daughter and the direct genetic effect for weaning growth.
STAY	Reported as the difference in probability of a sire's daughters staying in the herd until 6 years of age, given that they calved as a 2-year-old.
DOC	Reported as the difference in yearling-age progeny temperament, represented as a difference in probability that progeny will be scored as a 1, rather than a 2-6 on the docility scale (1 = docile disposition; 6 = extremely aggressive).
CW	Reported as the difference in pounds of progeny carcass weight.
YG	Reported as the difference in progeny USDA Yield Grade score units (1-5).
MARB	Reported as the difference in progeny carcass marbling score.
BF	Reported as the difference in inches of external backfat at the 12th and 13th rib.
REA	Reported as the difference in square inches of ribeye area between the 12th and 13th rib.
\$API	Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold on a grid (carcass grade and yield).
\$TI	Evaluates sires for use on mature Angus cows with all offspring put on feed and sold on a grid (grade and yield).
\$GAIN	A prediction designed to identify animals that are more profitable in the feedlot by converting feed into weight. \$Gain is a combination of DMI and ADG, where ADG is weighted by the value of a pound of gain, and DMI is negatively weighted by the cost of a pound of dry matter. \$Gain is expressed as the dollar difference per head per day during the post-weaning period.

Watch & Bid online for FREE at

DVAuction
Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction - a DV representative will notify you once you have been approved.
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding - be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding: If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

CLARITY IS CASH

\$20+

**MORE PER
CARCASS**

74lb.

LIGHTER COWS

Today's industry pays big for heavy fat steers, but your pocketbook demands smaller cows. What to do?

The answer is clear, dependable data and the courage to bypass traditional straightbreeding.

Simmental-influenced cows are an average **74 lb. lighter** at maturity than Angus-sired counterparts.^a

Meanwhile, packers pay **\$20 to \$34 more** for SimAngus™ and Simmental-sired steers than English-sired calves.^b

Finally, raise efficient cows and high-performance calves. The proof is in the data – and the cash.

^aUSMARC, Zimmerman, M., et al., "Breed and heterotic effects for mature weight in beef cattle," *J. of Anim. Sci.*, Vol. 99, 2021. Adjusted for sire sampling, Angus was the heaviest at maturity among the 16 breeds evaluated. Solutions are deviations from Angus. YW EPDs were extracted from genetic evaluations conducted in 2019. Estimate of MWT differences at 6 years of age. The study considered 108,857 weight records from 5,156 crossbred cows sired by 787 bulls. ^bEffect of sire breed group on carcass value of feedlot cattle harvested through Tri-County Steer Carcass Futurity Cooperative, Lewis, Iowa, 2002 to 2018. Odde, K. & King, M. (March 2021). Kansas State University. Relationships Among Sire-Breed Group, Calf Sex and Year Group on Carcass Traits. Breeds represented in the English-sired group: Angus, Red Angus, South Devon, Hereford and Shorthorn.
